

PhD Program in Pharmacological Sciences

January 28th, 2020

ENTERIC NEUROSCIENCE WORKSHOP

Hall Meneghetti, Building Pharmacology «E. Meneghetti»

Myenteric Ganglia

on «The Kiss» painting by Gustav Klimt

Artwork by Andrea Pagetta

8.30 *Welcome & Introduction*

Stefano Moro (Department Director)

Nicola Ferri (PhD Program Director)

Barbara Gatto (International Relations Delegate)

Moderators: Chiara Bolego, Pietro Giusti

8.45 **A microscopy view on enteric neuronal activity**

Pieter Vanden Berghe (KU Leuven)

9.30 **Guts4brain: relevance for autism spectrum disorders**

Aletta D. Kraneveld (University of Utrecht)

10.15 *Break*

Moderators: Rocchina Colucci, Morena Zusso

10.30 **Drug-Gut Microbiota Interactions**

Niall Hyland (University of Cork)

11.15 **Hyaluronan, a new neuroimmune modulator of the microbiota-immune-gut-axis"**

Cristina Giaroni (University of Insubria)

12.00 **Toll-like receptors and enteric nervous system**

Maria Cecilia Giron (University of Padova)

12.45 *Discussion & Closing remarks*
