

CORSO DI ALTA FORMAZIONE IN RADIOFARMACIA
CORSO di DOTTORATO in SCIENZE FARMACOLOGICHE

Venerdì 9 maggio 2025 alle ore 9.00
Aula 1, Edificio di Scienze Farmaceutiche

Prof. Paola Erba
Università di Milano Bicocca
University Medical Center Groningen, Paesi Bassi

terrà il seminario dal titolo

Radiofarmaci e Medicina Nucleare

La presenza della S. V. sarà molto gradita

Prof. Paola Anna Erba is an Associate Professor in Nuclear Medicine and Diagnostic Imaging at the Medical Faculty of Bicocca University, and Chair of the Nuclear Medicine Department at ASST Papa Giovanni XXIII in Bergamo. She is also affiliated with the Department of Nuclear Medicine and Molecular Imaging at the University Medical Center Groningen, the Netherlands.

Her research interests broadly cover the fields of infection, inflammation, and oncology. Her main area of focus is cardiovascular infections, where her work has led to the introduction of multimodality imaging in the clinical guidelines for infectious endocarditis and CIED infections. In oncology, her research centres on the validation of new targets/probes for radioimmunoscinigraphy/radioimmuno PET and radioimmunotherapy, as well as conducting translational, early-phase human clinical studies.

She is an active member of the Italian Association of Nuclear Medicine (AIMN) and the European Association of Nuclear Medicine (EANM), where she currently serves as Education Chair of the European School of Multimodality Imaging and Therapy (ESMIT) and EANM President-Elect 2023–2025.
