---

Raffaella Rossin is a co-founder, and currently VP of Discovery, of Tagworks Pharmaceuticals, an innovative Dutch clinical biotech company developing improved cancer therapies based on proprietary Click-to-Release technology.

Dr. Rossin achieved a PhD in Chemistry at the University of Padua in 2003. From 2003 to 2008, Dr. Rossin worked as Post-Doctoral fellow and Research Instructor at the Washington University School of Medicine In St. Louis Missouri, where she investigated many new radiolabeled compounds for tumor diagnosis and therapy.

Dr. Rossin joined Philips Research in Eindhoven, The Netherlands, as Senior Radiochemist in 2008, before spinning out Tagworks with her colleague Marc Robillard in 2013.
